

October 2008

TO: ALL REGISTERED COMPANIES, BRANCH OFFICES AND INTERESTED PARTIES

The Structural Pest Control Board's Spring 2008 Newsletter contains an article regarding an accusation filed against Cartwright Termite & Pest Control, Inc. (PR389, Branches 1, 2 and 3), and Michael R. Cartwright, Sr. (OPR 4563, Branches 1, 2 and 3) of El Cajon. The article referenced three separate allegations. This article contains incomplete information in that Michael R. Cartwright, Sr. and Cartwright Termite & Pest Control, Inc. agreed that they were subject to discipline only for failing to perform work in a careful manner by using pest control equipment that was not in good repair and safe to operate when they used a leaking power sprayer.

The Board apologizes for the oversight of publishing incomplete information and trusts that this clarifies the matter.
